

Imagicle UCX Attendant & Agent Console

User Guide for any Calling
Platform

UCX Attendant & Agent Console.

General overview.

2 different workspaces.

With the same calling interface.

Attendant Console

To easily handle incoming and outgoing calls through an intuitive and complete interface.

Agent Console

To easily handle not only calls (from the same interface of AC), but also chat requests coming from different channels through a dedicated UI.

UCX Console

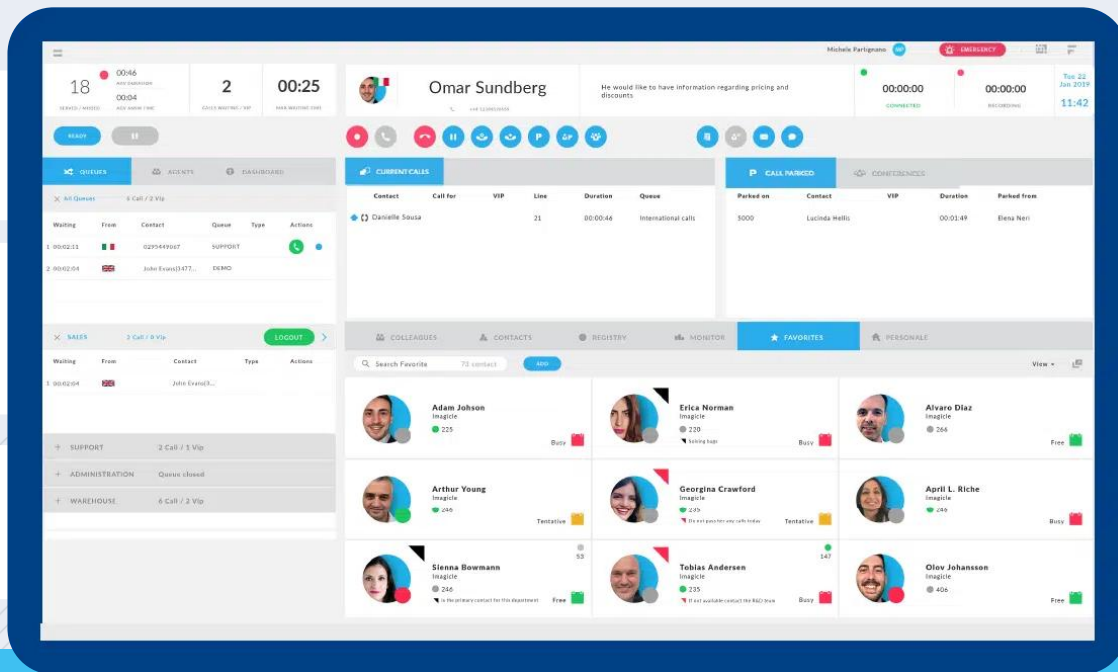

Imagicle Attendant Console.

Simplify and improve the handling of incoming and outgoing calls for all operators.

Easy to use interface with everything in one click

Answer, transfer, park calls and manage queues

Start and control recordings

Always know who is calling with caller ID

Integrated with your directories and CRM

Available for visually impaired and blind users

Imagicle UCX Agent Console.

An Omnichannel console to make easier welcoming customers through voice and digital channels, keeping agent and customer happier than ever.

YOUR CALLS JUST A CLICK AWAY

You see the incoming caller details. Answer with a click, route the call to another agent, or queue it if busy. Monitor queues and team status quickly, and much more.

LIVE CHAT WITH YOUR CUSTOMERS

Easily manage customer requests coming from different channels, like your website, WhatsApp, Telegram, Messenger, and more.

HUMAN & VIRTUAL TOGETHER

Free your agents from repetitive tasks. Let users digitally or vocally speak to virtual agents ready to escalate to human ones when needed.

A clean interface, with everything you need.

CALLS

The screenshot displays the Imagicle interface, which is divided into several sections:

- Top Bar:** Shows the user's name (Danielle Sousa), a profile picture, and a status indicator (CONNECTED). It also displays a timer (00:00:00) and a recording status (RECORDING).
- Left Sidebar:** Contains navigation options: QUEUES, AGENTS, and DASHBOARD. Below these, there are sections for "All Queues" (6 Call / 2 Vip), "SALES" (2 Call / 0 Vip), and "SUPPORT" (2 Call / 1 Vip). Each section lists waiting calls with details like "From", "Contact", "Queue", "Type", and "Actions".
- Top Right:** Displays a "CURRENT CALLS" section with a table showing call details (Contact, Call for, VIP, Line, Duration, Queue). Below this is a "CALL PARKED" section with a table showing parked calls (Parked on, Contact, VIP, Duration, Parked from).
- Bottom Right:** Features a "COLLEAGUES" section with a grid of agent status cards. Each card shows the agent's name, profile picture, and status (Available, Busy, or Offline). The agents listed are: Lorenzo Naldi, Elena Panzera, Bernardo Federigi, Yuri Montagnani, Fabiana Andreozzi, Sonia Vicini, Viviana Di Meglio, Matteo Conta, and Samuele Franceschi.

Agent & Attendant Console - Calling interface.

The screenshot displays the Agent & Attendant Console interface, which is used for managing calls and agents. The interface is divided into several sections, each with a numbered callout explaining a specific feature:

- 1. CALLER COUNTRY FLAG AND NAME**: Located at the top center, showing the caller's profile picture, name (Danielle Sousa), and phone number (+44 123456789).
- 2. PANIC BUTTON**: A red button labeled "EMERGENCY" in the top right corner, used to trigger different alerts through Imagicle Emergency Notification.
- 3. PARKED CALLS PANEL (Att.Console only)**: A panel on the right side showing a list of parked calls with columns for "Parked on", "Contact", "VIP", "Duration", and "Parked from".
- 4. COLLEAGUES**: A panel in the center showing a list of colleagues with columns for "Contact", "Call for", "VIP", "Line", "Duration", and "Queue". It includes a search bar and an "ADD" button.
- 5. SEARCH FIELD**: A search bar in the center, used for searching contacts with a "Google-like" search using all available contact fields.
- 6. LOG IN/OUT**: A green button labeled "LOGOUT" in the bottom left corner, used to log out of the console.
- 7. SPECIFIC QUEUES PANEL**: A panel on the left side showing a list of specific queues with columns for "Waiting", "From", "Contact", "Queue", "Type", and "Actions".
- 8. ALL QUEUES PANEL**: A panel on the left side showing a list of all queues with columns for "Waiting", "From", "Contact", "Queue", "Type", and "Actions".
- 9. AGENT STATUS**: A panel at the top left showing the agent's status (Ready, Pause, Logged out) and a "READY" button.

The interface also includes a top navigation bar with the user's name (Micaela Pirtognagni), a profile picture, and a "MP" button. The bottom navigation bar includes tabs for "CURRENT CALLS", "COLLEAGUES", "CONTACTS", "REGISTRY", "MONITOR", "FAVORITES", and "PERSONALE".

Agent Console only - Chat interface.

The screenshot displays the Agent Console Chat interface. At the top, a status bar shows 'Kayla Bird' with a profile picture, an 'EMERGENCY' button, and the date/time 'Fri 5 Apr 2024 16:55'. Below this is a dashboard with four metrics: '11' (SERVED/MISSED), '00:00:56' (AVG DURATION), '0' (CALLS WAITING/VIP), and '00:05' (MAX WAITING TIME). A 'READY' button and a pause icon are also present. A row of icons for various actions (call, chat, etc.) is at the bottom of the dashboard. A blue callout box labeled '1. CALL PANEL' points to the top right area, stating: 'When working on chats, operators can still see call statistics and active calls with the same commands as Attendant Console.'

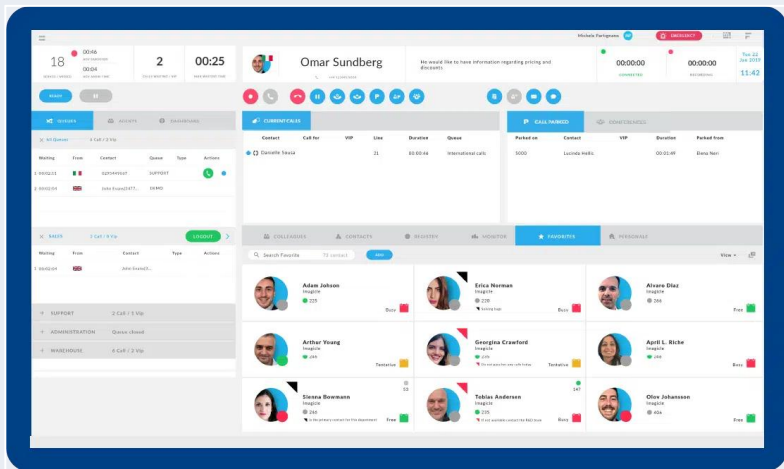

The main interface is divided into three sections. On the left, a 'CHAT' tab is active, showing a list of 'Unassigned Conversations' with entries for Anna Lee, Jack Lars, Charley Harrison, Cecile Rollins, and Emanuel Newton. A blue callout box labeled '5. ACTIVE CHATS' points to this list, stating: 'Chats the operator is handling that haven't been terminated yet.'

In the center, the 'CURRENT CHAT' for 'Jack Lars' is displayed. It shows a timeline of messages: 'Yes of course! I'm transferring you to an operator.', 'Hi Jack, you're speaking with Laura, how can I help you?', 'Ok, I will file a dispute for the fine ID 0123456789. You'll receive an update with the status of the dispute in the next 3 days. Can I help you with anything else?', and 'Great, have a great day. Feel free to reach out if you need.' A blue callout box labeled '2. CURRENT CHAT' points to the chat header, and another labeled '3. BUTTONS TO OPEN TICKET, ARCHIVE CHATS, AND LOOK FOR CONTACTS' points to the icons below the chat messages.

On the right, the 'CONTACT DETAILS' for 'Jack Lars' are shown, including his profile picture, name, location ('London, United Kingdom'), email ('jacklars@gmail.com'), phone number ('+44 20 7946 0406'), and address ('65 Bullwood Rd.'). A blue callout box labeled '4. CONTACT DETAILS' points to this section, stating: 'Name and details of the person that has contacted the operator'.

Imagicle UCX Console

Installation requirements

Supported client operating systems

- ✓ Windows 10
- ✓ Windows 11
- ✓ 32 or 64bit

Hardware requirements

- ✓ 19" monitor, 1440 x 900 resolution or above
- ✓ Dual-core CPU or higher
- ✓ 4GB RAM

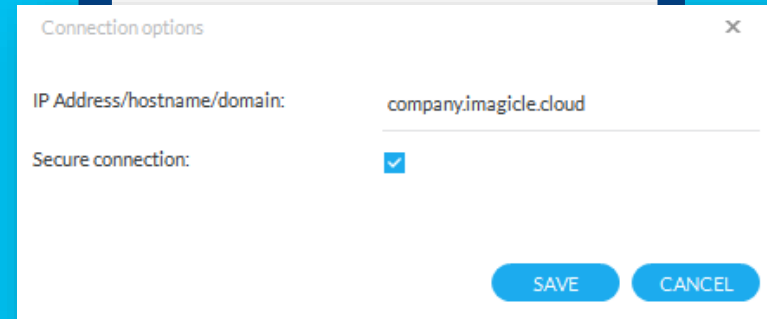

Imagicle UCX Console

Log in.

First time Login.

- First time you launch UCX Console client:
 - The application prompts you to enter the FQDN or IP address of Imagicle UCX Suite server. For HA environments, please enter Primary Imagicle Server's IP/FQDN
 - If "Secure connection" is flagged, then UCX Console connects to UCX Cloud Suite through two secure, TLS 1.2 TCP sessions on ports 51235 and 51236. .
 - Then you are prompted to enter your user's credentials. SSO is supported.
 - If UCX Suite is synched with Active Directory or Entra ID, you just have to enter your Windows login credentials.

The image shows two overlapping windows from the Imagicle UCX Suite. The background window is the 'LOG INTO Imagicle UCX Console' login screen, featuring the Imagicle logo (a blue stylized 'C') and a 'Username' input field. The foreground window is a 'Connection options' dialog box. It contains two fields: 'IP Address/hostname/domain:' with the value 'company.imagicle.cloud' and 'Secure connection:' with a checked checkbox. At the bottom right of the dialog are 'SAVE' and 'CANCEL' buttons. A large green plus sign is visible in the top right corner of the overall image.

Connection options

IP Address/hostname/domain: company.imagicle.cloud

Secure connection: ☒

Imagicle UCX Console

Panels.

Adapt it to your needs.

From top-left menu → VIEW, you can display/hide the panels included in Imagicle Attendant Console main layout.

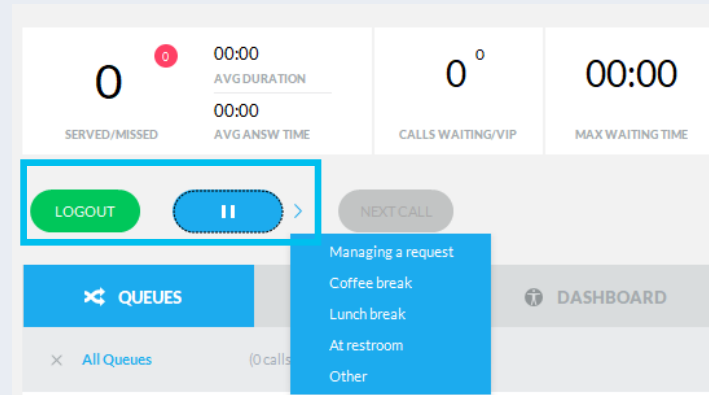

Imagicle UCX Console

Queues.

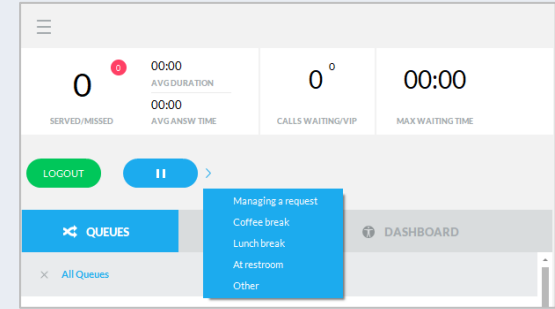

Queues panel.

- This panel helps you to set your status and get a flavor of all queues you have been assigned, showing number of served and missed calls, how many waiting calls, waiting time, average call duration and answering time
- “Ready” toggle button allows to set yourself ready to serve calls to ALL queues you have been assigned
- After having set the Ready status, the button changes to “Logout” to allow you to toggle to NOT READY to serve calls (after working hours)
- “Pause” toggle button allows you to temporary logout from queue, by choosing pause reason (coffee break, lunch, others...)

Pause Reasons.

- When multiple pauses are configured on the server, pause button requires Agent to select a specific reason while setting himself in pause state. Available pause states are displayed, as per picture on the side
- Supervisors can also set pause reason for Agents
- Pause reasons are displayed on Attendant Console

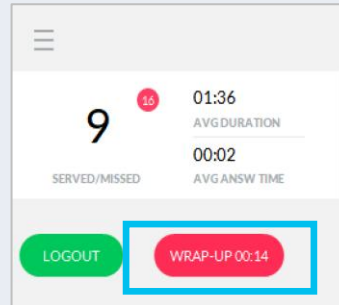

Agent/Operator status description.

STATUS	ICON	DESCRIPTION
Logged out on all queues		NOT READY to serve calls for any queue (i.e. out of working hours)
Ready on all queues		At work and READY to serve calls for ALL queues
Ready on selected queues		At work and READY to serve calls for selected queues
Pause / Wrap-up	 	At work, but in manual or automatic Pause. Temporarily not available to serve calls for ANY queue (i.e. lunch break or after a served call)

Wrap-up.

If configured in Advanced Queueing, a “Wrap-Up” time starts at the end of each handled call, where you are automatically set in pause on all queues, allowing you to accomplish admin procedures like CRM/ERP data entry or other workflow tasks

- At the end of wrap-Up time, your status is automatically reverted to Ready
- Both wrap-up and pause times are reported into agent’s statistic data

← Example of Wrap-Up status

← Example of Pause status

Queue info details.

- Panel where you can see all calls waiting in the queues
 - “All Queues” window lists all the waiting calls for all the queue where you have been assigned
 - Moreover, for each assigned queue, a dedicated window is available below. You can view waiting calls for each specific queue, you can manually login/logout from each queue and you can force queue opening/closing (if authorized)
- Info available in Queues panel:
 - Queue name
 - Waiting time
 - Caller Country
 - Caller Contact name and/or number
 - Type: can be “VIP” if call is coming from a contact included into a Contact Manager VIP directory; can be “R” for a call returning back to operator from camp-on queue (Att. Console only)
 - Actions: Operator can answer queued call by hitting green handset or he/she can book the call by hitting the blue hand

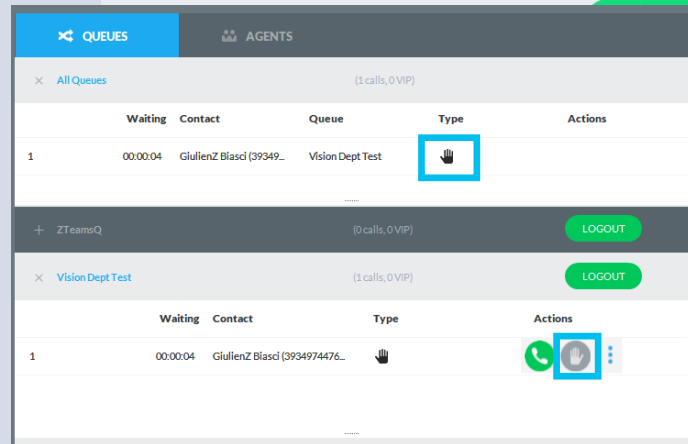

The screenshot displays the 'Queues' panel in a contact center software. At the top, there are navigation tabs: 'QUEUES' (highlighted), 'AGENTS', 'DASHBOARD', and 'CURRENT CALL'. Below the tabs, there are three queue sections:

- All Queues** (1 calls, 0 VIP): A table with columns 'Waiting', 'From', 'Contact', 'Queue', 'Type', and 'Actions'. It shows one call from 'Andrea So...' in the 'DEMO-IT' queue.
- DEMO-EN [P]** (0 calls, 0 VIP): A table with columns 'Waiting', 'From', 'Contact', 'Type', and 'Actions'. It is currently empty.
- DEMO-IT [P]** (1 calls, 0 VIP): A table with columns 'Waiting', 'From', 'Contact', 'Type', and 'Actions'. It shows one call from 'Andrea Sonnin...' with a waiting time of 00:00:06. A 'READY' button is highlighted in the 'Actions' column. A dropdown menu is open, showing options: 'Force open', 'Force closed', and 'Restore ordinary schedule'.

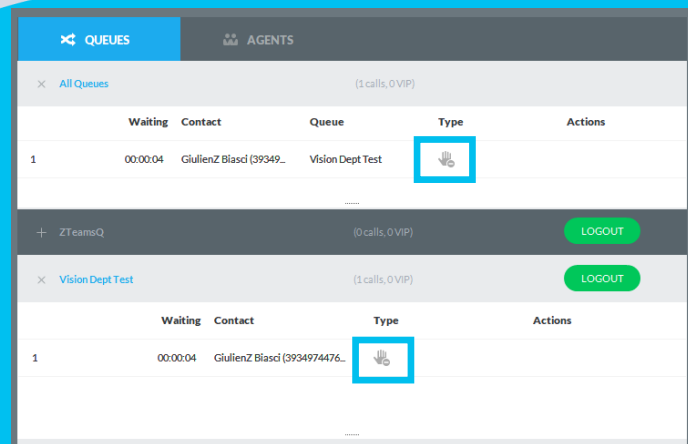

On the right side, there is a 'COLLEAGUES' section with a search bar and a list of names, including 'Ahmed Antar'.

Booked queue calls.

- Each operator can book a queued call, to force the distribution algorithm to transfer the call to own phone line.
- This is done from QUEUES panel, by clicking on “hand” icon available within “Actions” column.
- If the call is assigned to the operator by Sticky Agent feature, same icon automatic appears on chosen operator.

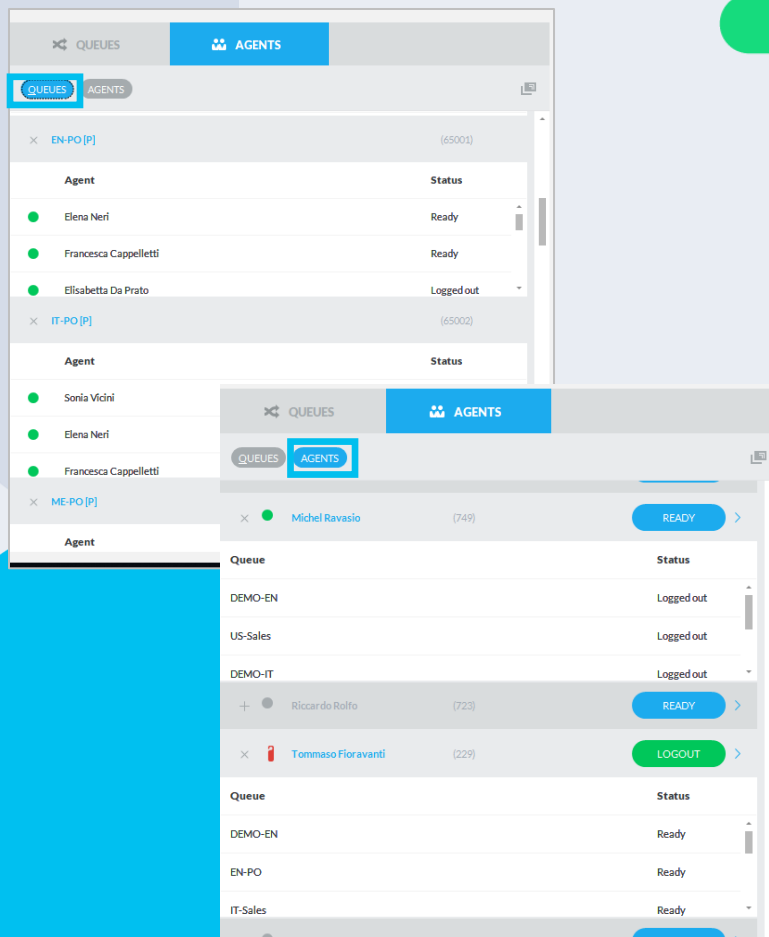

- If the calls is booked by another operator, the “hand” appears in the same position, with a grey color.
- Same thing applies if the call is assigned by Sticky Agent to another operator.

Queue panel: “Agents” tab.

- Panel **available only to queue supervisor or queue managers**. It shows agents ready status for each assigned queue
- Two different views, selectable from pull-down menu:
 - **“By Agent”** shows agents list and queues associated to each of them
 - Queue manager can force login/logout from all queues (button beside agent name) or from single queue (right-click on queue name)
 - **“By Queue”** shows queues list and agents associated to each of them
 - Queue manager can force agent login/logout by simply right-click on agent’s name, within a specific queue.

Queue panel: “Agents” tab.

- If you are an [Advanced Supervisor](#), you have access to two features which allow to monitor agents' performances. These are:

- “**Silent Monitoring**”: Listen to agent's conversation, without any awareness notice
- “**Whisper Coaching**”: Discreetly provide suggestions to agent, without involving remote party
- Both features are only available for Cisco UCM, HCS, Webex Calling Dedicated calling platforms.

The screenshot shows the 'AGENTS' tab in a queue management interface. It displays two sections of agent status, each with a header 'Agent' and 'Status'. The first section is for queue 'IT-PO [P]' (65002) and the second for 'ME-PO [P]' (65006). Each section lists agents with their status (Ready, Logged out, etc.). In the first section, the agent 'Elena Neri' is highlighted, and a red dot next to her name indicates that monitoring features are active. A blue box highlights two icons: a microphone (representing Silent Monitoring) and a speech bubble (representing Whisper Coaching). The interface also includes tabs for 'QUEUES', 'AGENTS', and 'DASHBOARD' at the top.

Agent	Status
Elena Neri	Ready
Elena Neri	Ready
Elisabetta Da Prato	Logged out

Agent	Status
Cinzia Micco	Ready
Elisabetta Da Prato	Logged out
Francesca Cappelletti	Ready

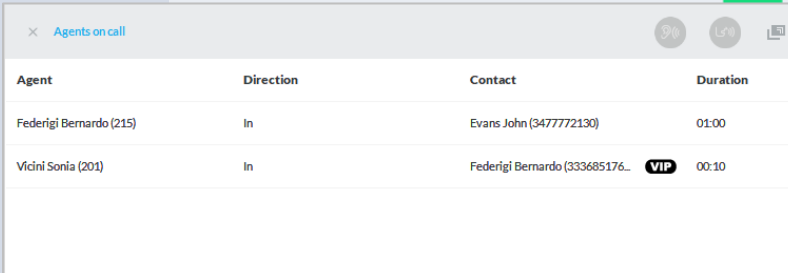

Queue panel: “Dashboard” tab.

- Panel available only to [queue supervisor or queue managers](#). It shows real time agent/queue related information
- Customizable view by time frame and Queues/Agents details
 - For each selected queue: real time waiting calls, max wait time, engaged agents and lost calls, agents on call.
 - For each selected agent: total served/missed calls, average call duration and answer time, percentage of login time vs. pause and logout time
 - A square icon on top right allows window detachment from UCX Console main GUI and full screen display on dedicated LCD wallboard display.
 - Each single window can be minimized by clicking “X” symbol on top-left or top-right.

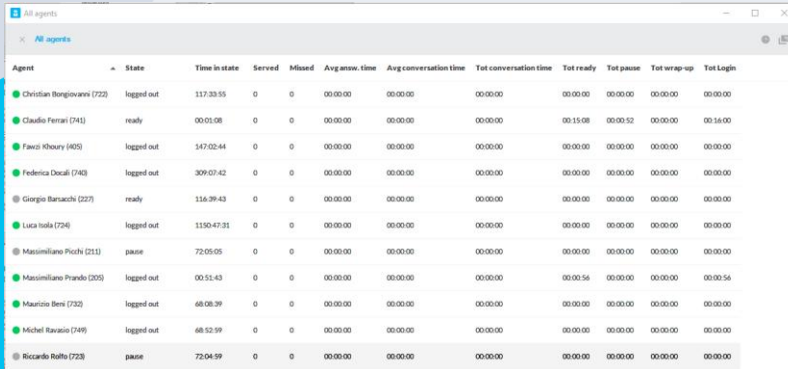

Queue panel: “Dashboard” tab.

- Real time information about agents
 - Detachable "All Agents" panel including login status, login status time, pause reason.
 - Detachable “Agents on call” panel including list of active calls for each agents and all the relevant information about the call, such as direction, contact (number) and duration of call. From here you can trigger Silent Monitoring or Whisper Coaching on active call (Cisco UCM, Webex Calling Dedicated only)
 - Each single window can be minimized by clicking “X” symbol on top-left or top-right

A screenshot of the 'Agents on call' panel. It features a title bar with a close button (X) and the text 'Agents on call'. In the top right corner, there are three icons: a circular icon with a plus sign, a 'Live' status indicator, and a list icon. The main content is a table with four columns: Agent, Direction, Contact, and Duration. Two rows of data are visible.

Agent	Direction	Contact	Duration
Federigi Bernardo (215)	In	Evans John (3477772130)	01:00
Vicini Sonia (201)	In	Federigi Bernardo (333685176... VIP	00:10

A screenshot of the 'All agents' panel. It has a title bar with a close button (X) and the text 'All agents'. Below the title bar is a sub-header 'All agents' with a dropdown arrow. The main content is a table with 13 columns: Agent, State, Time in state, Served, Missed, Avg ans. time, Avg conversation time, Tot conversation time, Tot ready, Tot pause, Tot wrap-up, and Tot Login. The table lists 13 agents with their current status and various performance metrics.

Agent	State	Time in state	Served	Missed	Avg ans. time	Avg conversation time	Tot conversation time	Tot ready	Tot pause	Tot wrap-up	Tot Login

Imagicle UCX Console

Call Handling

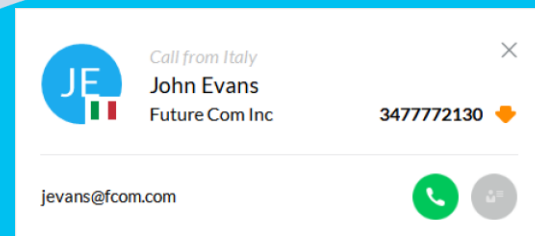

Notification of waiting calls.

- Upon incoming queued call, a pop-up window on bottom-right and/or an audible alert is generated by UCX Console (depends on alerting configuration)
 - At the same time, caller number, queue ID and caller ID name appears in Queue Panel
- You have the choice of waiting for the call to be dispatched to your phone or you can manually pick-up call by clicking on handset icon (squared red) or double-click on Queue panel's incoming call or right-click on same item and select "Answer"
- If distribution algorithm configured in Advanced Queueing is "On Demand", then you can only manually pick-up the call.

Incoming calls handling.

- Upon incoming call to your agent's phone, a **pop-up window** on bottom-right and/or an **audible alert** is generated by UCX Console (depends on alerting configuration)
 - At the same time, caller number, queue ID, caller ID, company name and nationality flag appears in top Phone Bar area
- **To answer call**, you can click on handset icon (squared red) or double-click on "Current Calls" call item or right-click on same item and select "Answer"
- Once in a call, you can perform the following basic operations:
 - Set the call on "hold" mode (handled by PBX), by clicking on  button
 - Perform a blind call transfer, by clicking on  button or a consultative transfer, by clicking the button . In both cases, a pop-up window appears, asking for destination phone number or contact name.

Additional buttons in MS-Teams UCX Console.

Thanks to Imagicle native MS-Teams integration based on ACS, Imagicle UCX Console includes softphone capabilities, allowing to handle calls without having MS-Teams client running in the PC workstation. Additional buttons have been added for this purpose, below described:

Mute/unmute
headset
microphone

DTMF Numeric
Keypad

Imagicle UCX Console

Transferring - Parking

Call Transfer with Consultation.

- Once in a call, you can **transfer the call** to a colleague, using **consultation**.
 - By clicking the blue-squared icon or hitting the relevant hot-key, a pop-up window allows you to enter destination number or contact name.
 - Once destination is selected, an outgoing call is issued (in the example: to extension 226)
- Once colleague answers the call, you can talk a while with your colleague and finally accomplish the transfer by clicking same above icon for a second time
- If needed, you can easily swap focus from calling party to transferring party by selecting relevant entries on “Current call” panel
- If transfer attempt fails, Attendant Console stores destination number into “Call for” column, allowing the operator to read call recipient, without having to manually add a note.

The screenshot displays the Attendant Console interface. At the top, a header bar shows a circular icon with 'LN' and the name 'Lorenzo Naldi' with extension '226'. Below this is a row of call control icons: mute, hold, end call, transfer (highlighted with a blue square), hold, and other call management icons. A blue bar labeled 'CURRENT CALLS' is positioned above a table. The table lists active calls with columns for Contact, VIP, Line, Duration, and Queue.

	Contact	VIP	Line	Duration	Queue
 	John Evans (3477772130)		215	00:01:29	DEMO...
 	Lorenzo Naldi (226)		215	00:00:08	

Toggle between active calls

- Through the CURRENT CALLS panel, you can toggle between multiple active calls, double-clicking on a call to set on hold and activating the selected one

	Contact	VIP	Line	Duration	Queue
 	John Evans (3477772130)		215	00:01:29	DEMO...
 	Lorenzo Naldi (226)		215	00:00:08	

Transfer to voice mail.

- One of the options available from current call's pull-down menu is "Transfer to voicemail"
- This option works with Imagicle VoiceMail application (Cisco UCM only) or with a third-party voice mail service.
- In case of Webex Calling MT environment, this option transfers the call to native WxC Mail Hub voice mail feature, by adding the prefix #55 to the internal WxC short number.
- In case of MS-Teams environment, MS ACS SDK takes care of transferring the call to user's own native voice mail

Parking a call.

- Once in a call, you can **park the call** using relevant PBX feature (if available), by clicking “P” button (squared blue) or by drag & drop active call with mouse. Call will be moved from “Current Calls” window to “Call Parked” window
- Caller party will hear a tone or music
 - to retrieve the call from parking area, just double-click on parked call item, use right-click pull-down menu option or use the appropriate Hot-Key
- Please be aware that a parked call can be picked-up by other agents too
- This feature is not available in Imagicle UCX Agent Console.

Parked on	Contact	VIP	Duration	Parked from

Imagicle UCX Console

Camp On.

Camp-On Call Parking (Att. Console only)

- **Camp-On** is a unique Imagicle feature which allows you to perform a queue-assisted call transfer to a busy extension
 - By clicking blue-squared icon, you can select transfer destination and move the call into Camp-On queue, with relevant welcome prompt and MoH.
 - Once destination number becomes available and call is answered, call transfer is automatically accomplished, without any further intervention.
 - During Camp-On wait, call is visible in your “Call Parked” window and you can retrieve it by double-clicking on call item.

The screenshot displays the Imagicle interface. At the top, a row of icons includes a 'P' icon, a blue-squared icon with a 'P' (highlighted with a red box), and a group of three people icon. Below this is a 'CALL PARKED' window with a table showing call details. A 'CAMP ON' search overlay is active, showing a search bar with 'loren' and a list of results.

Imagicle Attendant Console

Conference.

Creating a conference.

- Once in a call, you can invite multiple caller parties (depends on PBX conferencing capabilities) in a **conference call**, including yourself.
 - By clicking below blue-squared icon, a pop-up window allows entering alphanumeric characters for contact lookup. Once colleague is selected, an outgoing call is issued (below example: to extension 231)
- Once the colleague answers the call, you can talk a while with your colleague and finally add her/him into conference by clicking again same below icon

The screenshot displays a telephony interface. At the top, there is a row of circular icons for call functions: mute, hold, transfer, end call, pause, speed dial, park, and a blue square icon with a group of people (highlighted with a red box). To the right of these are four more circular icons: a group of people, a list, an envelope, and a speech bubble. Below the icons is a section with two tabs: 'CURRENT CALLS' (active) and 'CALL PARKED'. The 'CURRENT CALLS' tab shows a table with columns: Contact, VIP, Li..., Duration, and Que... The table contains one entry: a downward arrow icon, a group of people icon, 'Conference', a dash, and '00:00:13'. The 'CALL PARKED' tab shows a table with columns: Contact, Company, and Duration. It contains two entries: a downward arrow icon, a group of people icon, 'John Evans (3477772130)', 'Future Com Inc', and '00:00:13'; and an upward arrow icon, a group of people icon, 'Elena Panzera (231)', and '00:00:13'.

Imagicle UCX Console

Call Notes, Notifications, Emergency alerts

Call notes.

- While in a call, you can **attach a note to current call**. This is accomplished by clicking text icon (squared blue) and by adding text into pop-up window
 - If call is parked, the note is kept, as a reminder for the agent
 - Once call is transferred or terminated, note is saved in Call Registry
 - If you have multiple phone devices associated to operator's phone line, please advice your administrator to correctly associate them to relevant Attendant Console, to avoid losing note upon call park.

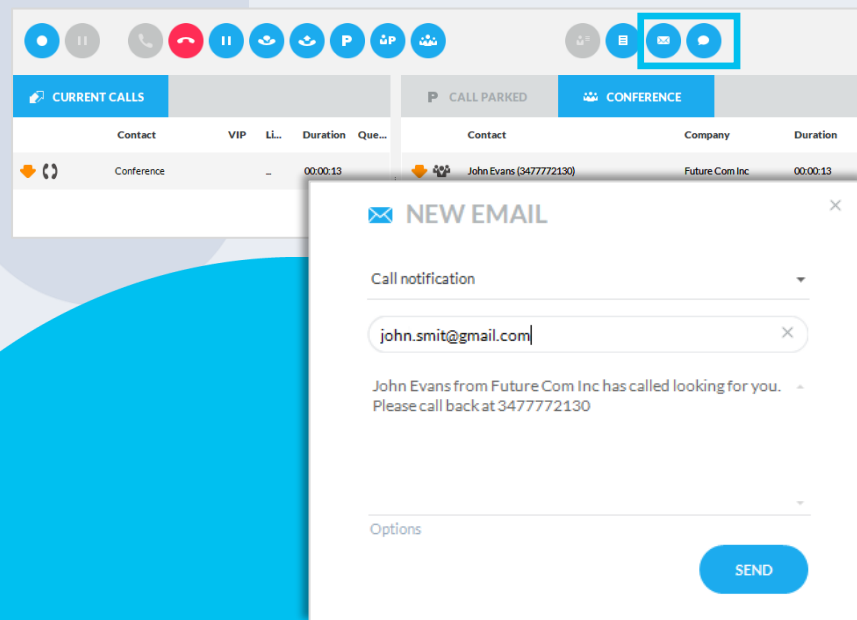

The screenshot shows a call center interface. At the top, there is a row of call control icons: mute, hold, transfer, end call, park, consult, and group call. To the right of these are icons for agent status, a text icon (highlighted with a red box), email, and chat. Below the icons is a section titled 'CURRENT CALLS' with a list of active calls. The first call is highlighted with a red box.

	Contact	VIP	Line	Duration	Queue
	John Evans (3477772130) <i>Please help this customer!</i>		215	00:01:10	DEMO-IT

Email and SMS notifications.

- **Email/SMS handling** allows you to send emails or SMS to customers and colleagues, based on predefined templates and including current call's information
- By clicking  (email) or , a pop-up window appears, prompting you to choose a template ("Call notification" in the screen sample) and enter the receiver's email address or mobile phone number
- Message will be sent by pressing bottom-right "Send" button (squared blue)
- SMS handling requires a subscription to an international SMS provider. See Attendant Console "Option" menu for further details.

The screenshot displays a software interface for call management. At the top, there is a toolbar with various icons, including a blue square icon with a white envelope, which is highlighted by a red rectangle. Below the toolbar, there are tabs for 'CURRENT CALLS', 'CALL PARKED', and 'CONFERENCE'. The 'CURRENT CALLS' tab is active, showing a table with columns: Contact, VIP, LI., Duration, and Que... The table contains one row with the following data: Contact: Conference, VIP: -, LI.: -, Duration: 00:00:13, Que...: -. The 'CALL PARKED' tab is also visible, showing a table with columns: Contact, Company, and Duration. The table contains one row with the following data: Contact: John Evans (3477772130), Company: Future Com Inc, Duration: 00:00:13. A 'NEW EMAIL' pop-up window is overlaid on the interface. It has a title bar with a close button (X). The window contains a dropdown menu labeled 'Call notification' with a downward arrow. Below the dropdown is a text input field containing 'john.smit@gmail.com' and a clear button (X). Below the input field is a text area containing the message: 'John Evans from Future Com Inc has called looking for you. Please call back at 3477772130'. At the bottom of the window is a 'SEND' button.

john.smit@gmail.com

John Evans from Future Com Inc has called looking for you. Please call back at 3477772130

Options

SEND

Trigger an emergency alert through the Panic Button.

Red Panic Button available on top-right console interface.

- Can trigger different alert notifications through Imagicle Emergency Notification application
- Can trigger a phone call to any emergency number
- Can be hidden to each operator or globally

Imagicle UCX Console

Call Recording integrations.

Call Recording.

If Imagicle UCX Platform (Cisco UCM and Webex Calling DI only) includes a Call Recording license, then you can trigger current conversation recording from UCX Console. Works with any phone registered to your PBX and associated to UCX Console.

While in a call, you can click on Record button  to start & stop call recording. See below:

Console informs you in real time that call recording is in progress, together with recording time (also on MS-Teams environments).

Current recording can be temporarily paused by pressing  Mute button, to comply with PCI-DSS regulations. See below:

UCX Console informs you in real time that call recording is paused.

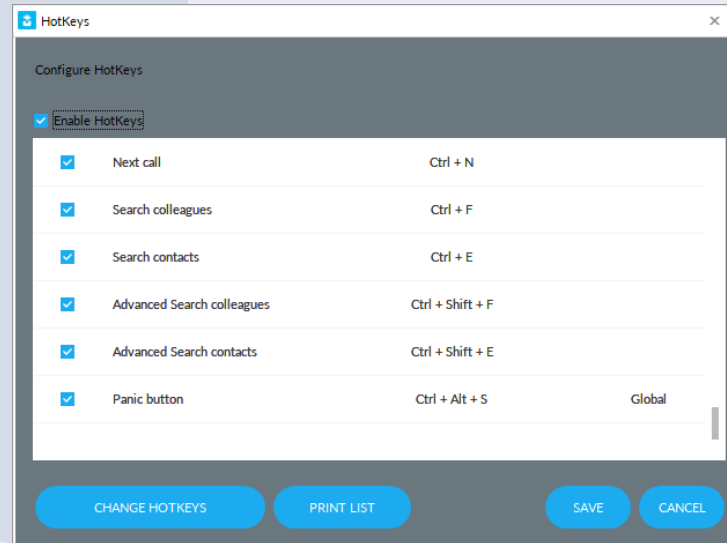

Imagicle UCX Console

Hotkeys.

Hot Keys Management.

- Special keyboard shortcuts are defined by default in Attendant Console. Those shortcuts, named “**HotKeys**”, can be listed by pressing button available on top-right main console window
- HotKeys allows you to quickly access many call related functionalities
 - “Global” HotKeys are accessible when console runs in the background
- All HotKeys are fully customizable from specific “**Manage HotKeys**” option, available into top-left pull-down menu.

Imagicle UCX Console

Colleagues tab - BLF

Colleagues tab.

- “**Colleagues**” tab shows the list and info of your colleagues, with their real-time telephony status (BLF), rich presence status from Cisco Unified Presence Server, Webex and Microsoft Teams, calendar info and pictures (if imported from AD/LDAP). It is possible to start a “simple” search through the search-as-you-type box (blue-squared below), select fields to display and drag&drop columns to change display order

Search in Colleagues tab

- It is possible to search for a colleague name, number or department by using both simple and advanced search and pressing Enter or “zoom lens” button. Returned search results are including entries with any diacritic marks associated to same letter. As an example, if you search for “Muller”, search results include Müller, too.
 - You can perform an exact search by using quotes
 - It is also possible to sort the list by any column, change list layout from “Display List” pull-down menu and finally choose columns to be shown by selecting them from “Show” pull-down menu
 - A square icon on top right allows window detachment from Attendant Console main GUI and full screen display
 - To call a contact in the list, simply double click on any phone number
 - If an alphanumeric custom field is populated with a web URL and you click on  icon appearing when you point it with the mouse, it automatically invokes a web browser. Maximum field size is 255 characters
- 

Fly Search through all contacts

- Fly Search hotkey (<CTRL>+2 default hotkey) allows you to search for contacts across Colleagues, Contacts and Favorites tabs, by entering text or numbers in the search field. Search includes Names, Surnames, phone numbers fields. Returned search results display entries with any diacritic marks associated to same letter. As an example, if you search for “Muller”, search results include Müller, too.
- Search results appear as you type data into the search field, and they are divided into two categories: "Favorites and colleagues" and "Other contacts".
- Fly search does not include local contacts from Outlook, Excel files or ODBC databases.

Six telephone status.

Call forward

- Indicating that calls to the user are forwarded to another number, specified in the “Forwarded to” column
- You need to enable “Forwarded to” column from “Show” menu.

Forwarded to Voice Mail

- Indicating that calls are transferred to personal voice mail

Do not disturb

- Indicating that user is currently not available can't answer to calls

Contacts tab.

You can directly **search** for a **contact name, number or company** through a simple or advanced search by clicking Enter or the “zoom lens” button.

- Returned search results are including entries with any diacritic marks associated to same letter. As an example, if you search for “Muller”, search results include Müller, too.
- You can perform an exact search by using quotes
- Advanced Search does not return results coming from locally imported contacts (Excel, Outlook, ODBC, ..)

You can **sort the list** by any column, **change list layout** from “Display List” pull-down menu **and choose what columns to be shown** by selecting them from “**Show**” pull-down menu.

- A square icon on top right allows window detachment from Attendant Console and full screen display
 - To call a contact, double click on any phone number
- 

“Fly Search” button.

- The “Fly Search” button, displayed on top-center of Attendant Console , allows you to:
 - Search for contacts across Colleagues, Contacts and Favorites tabs, by entering a text or numbers in the search field.
 - Search covers all contact fields and it leverages “Starts with” algorithm within each field.

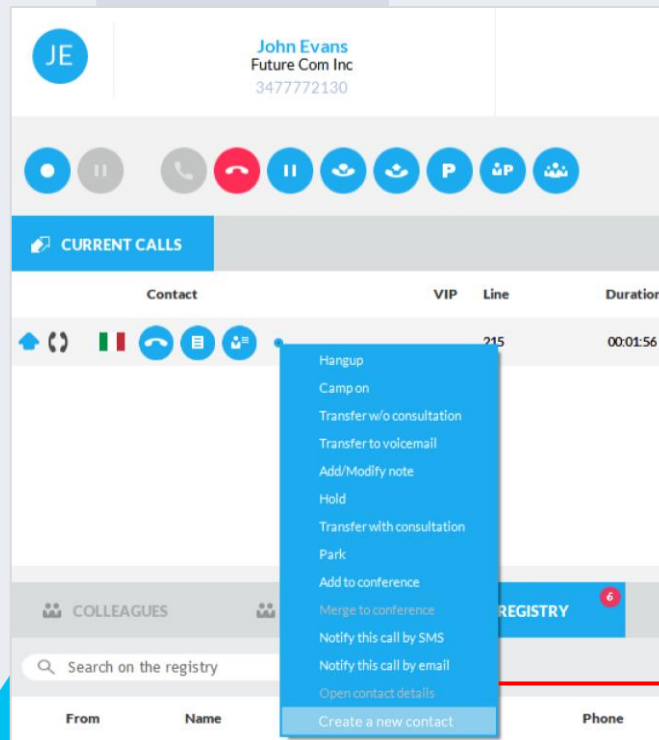

Results are displayed split into two categories: “Favorites and colleagues” & “Other Contacts”.

Add a new contact.

- Just a click to add contacts through an easy form
 - During a call
 - From call notify popup
 - From Contacts panel
 - From calls Registry
 - ...
- Speed dials and custom fields are configurable too, if enabled

- Today the closest free slot is at 5:00 PM
- MON 3 AUG 2020
- 3:00 PM - 5:00 PM
- UX Customer Session

Favorites panels.

To manually **add new contacts** into favorites panels, you can click on top-left “+” icon and enter contact info and numbers

- To **add existing contacts** from “Colleagues”, “Contacts” or “Registry”, you can right-click on any entry and select “Add to favorites” from pull-down menu
 - It is possible to directly search for a contact name, number or company by the text box below the panel and pressing Enter
 - It is also possible to change list layout from top-right pull-down menu: different grid options are available.
 - A square icon on top right allows window detachment from Attendant Console and full screen display
 - To call a contact, simply double-click on any item in the panel
- 

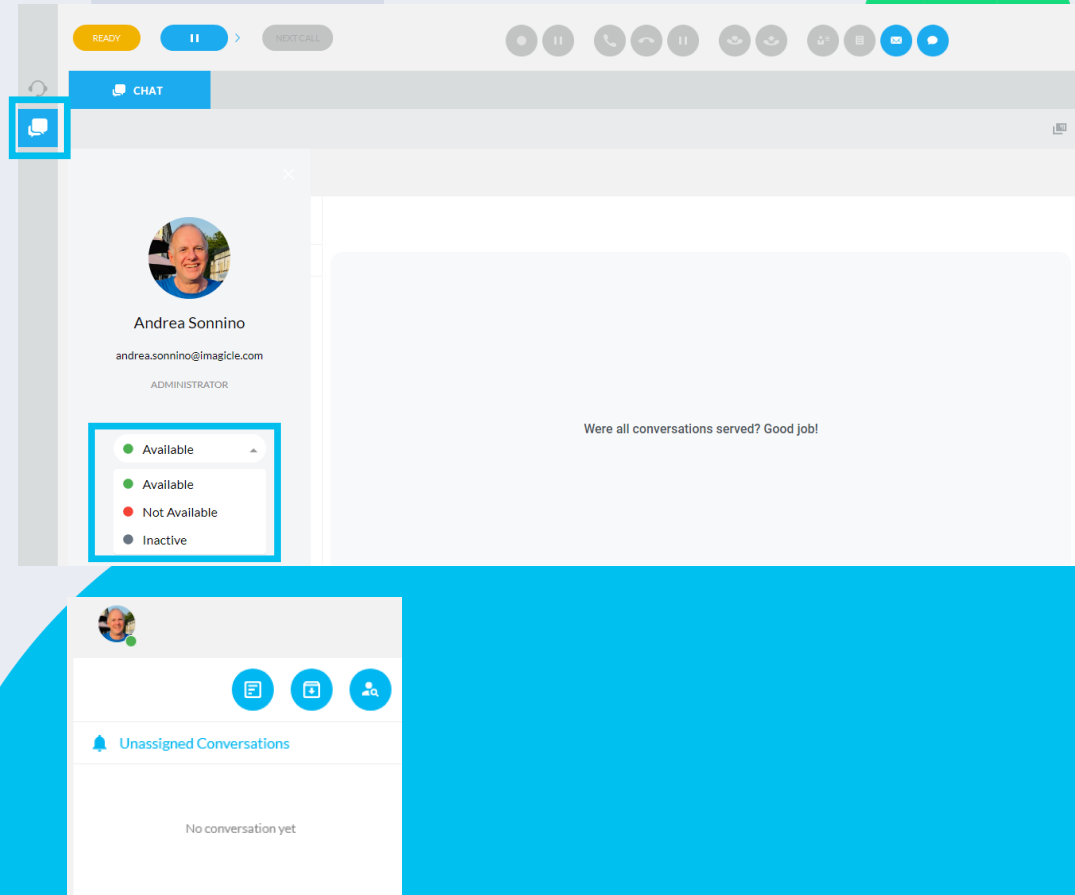

Imagicle UCX Agent Console

Chat Panel.

Digital Integration.

- If your Imagicle Engage subscription includes UCX Agent Console Advance 2 or 3, you can interact with your customers or partners not only by phone calls, but also through a **digital** channel, in turns integrated with the most common chat services available in the market, like:
 - Whatsapp
 - Telegram
 - Facebook
 - Web
 - Email
 - etc.
- When you select the top-left chat icon, the chat window appears, allowing to set yourself as **Available**, **Not Available**, Inactive by clicking on operator's picture.
- Chat login is automatic and you can manually create a ticket, browse archived conversations and contacts list, by pushing respective blue buttons under operator's picture.
- Chat panel can be hidden from VIEW menu, if not in use.

Digital Integration.

- Once a new customer contacts the Company via chat, the relevant transaction is forwarded to the first available “blended” operator, who can pick it up from “Unassigned Conversations” list.
- Customer’s data, if already available into customer’s DB, are displayed in the right-end panel. Operator can also manually fill the user’s details and manually set the conversation to Open, Pending and Resolve.
- From same panel, you can also add TICKET details, priority, tags and NOTES.
- During the chat transaction, operator can deliver documents, videos and web link to address customer’s request.
- Whole chat progression is available on operator’s interface, and she/he can scroll up & down to view previous messages.

Panel for guest#0695. Status: Resolved. A dropdown menu is open showing options: Open (pink square), Pending (yellow square), and Resolve (green square). Below the menu, fields for contact information are visible: Phone (+33785996622), Company (ACME Inc.), Address, Name (John), Surname (Smith), and an option to add contact properties. A 'support' tag is present. At the bottom, technical details are listed: Imagicle Demo Assistant, Chrome 132.0.0.0, Windows 10, IP 172.20.143.230, Language En, and a system note 'All Sales + SoS [DO NOT EDIT]'.

Ticket details for guest#0695. Ticket ID #11789. Priority: Urgent. Followers: Lorenzo Naldi. Options include 'Convert to offline' and 'Add Tag to contact'.

Notes panel for guest#0695. A text input field is labeled 'Add a note ...'. Below it is a blue 'Add Note' button. A note is displayed: 'Customer having issues with a phone handset.' with a close icon. It was created on 24/3/2023 by Andrea Sonnino.

 - Microsoft own credentials are required
 - The “Login” button allows to initiate the connection to Microsoft Calendar service (EWS only)

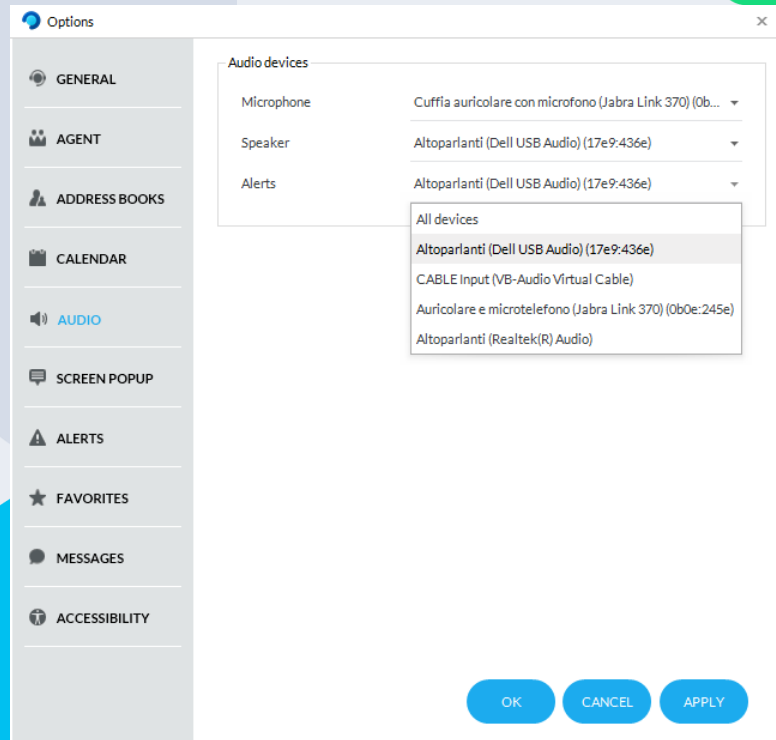

Please be aware that Calendar integration leverages Graph APIs-based OAuth2 authentication method. EWS-based authentication is still available to existing customers, but please consider it has been deprecated by Microsoft, with a deadline on October 1st 2026.

The screenshot shows the 'Options' dialog box with the 'CALENDAR' tab selected. Under the 'Microsoft 365' section, the checkbox 'Enable visibility of colleagues' calendars' is checked. At the bottom, the text 'Microsoft 365 Integration' is displayed above 'OK', 'CANCEL', and a disabled button.

The screenshot shows the 'Options' dialog box with the 'CALENDAR' tab selected. Under the 'Microsoft 365' section, the checkbox 'Enable visibility of colleagues' calendars using your Microsoft 365 (deprecated) credentials' is checked. Below this, 'Basic Authentication' is selected with a radio button, and 'Modern Authentication' is unselected. The status is 'Logged out'. A 'LOGIN' button is present. At the bottom, the text 'Legacy EWS Integration' is displayed above 'OK', 'CANCEL', and 'APPLY' buttons.

Audio settings, available to UCX Console for MS-Teams only.

- “**Audio**” tab allows to setup the correct audio devices for Microphone, speaker and alerts.
- This option provides pull-down menu with all available audio devices embedded in your PC workstation, including headsets or external speakers connected via Bluetooth.

Screen PopUp settings.

- “**Screen PopUp**” tab allows you to trigger an external third-party application upon incoming and/or outgoing call.
- Both web-based or thick client-based external app are supported.
- Upon screen pop-up trigger, UCX Console forwards some parameters related to current call, settable by clicking on “Configure” button.
- Call parameters including call direction
- Once the connector has been successfully configured and tested, you can export the configuration to be implemented in other UCX Console clients.

Apply only for: Internal and External calls

Incoming/Outgoing calls

☐ For incoming calls, only those coming from a queue

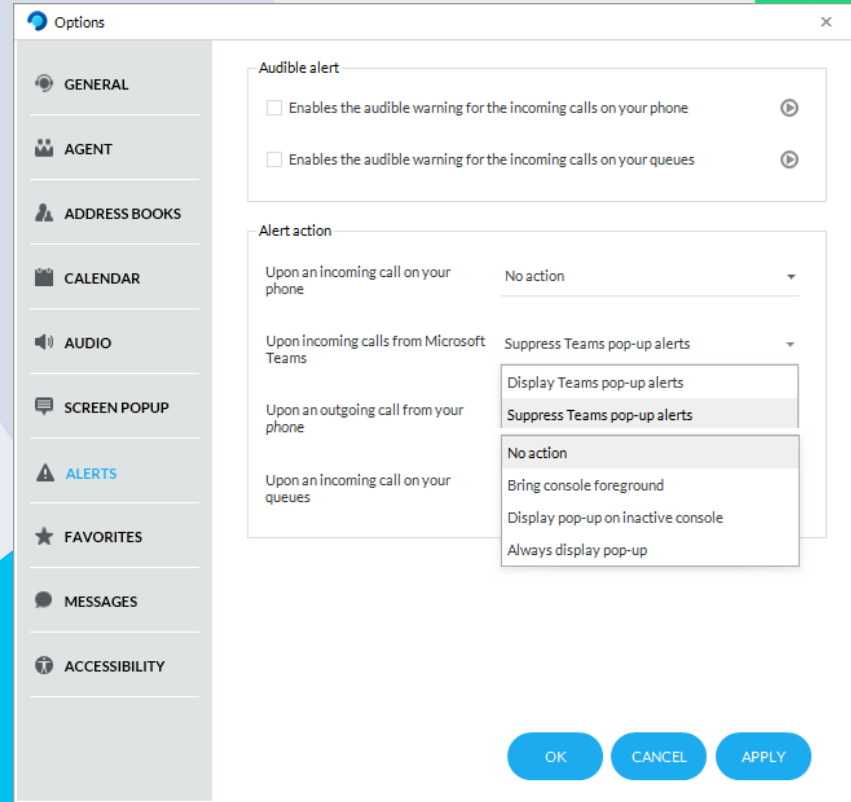

Action: Open an url **CONFIGURE**

EXPORT CONFIGURATION FOR OTHER CLIENTS

OK **CANCEL** **APPLY**

Alerts settings.

- “**Alerts**” tab allows you to customize the way to be alerted upon incoming calls. Choices include pop-up window, bring console foreground, audible alerts or just do nothing.
- UCX Console for Microsoft also includes a specific option to suppress MS-Teams client’s popup. We strongly suggest to enable this feature, to avoid annoying pop-ups on top of UCX Console interface.

The screenshot shows the 'Options' dialog box with the 'Alerts' tab selected. The left sidebar lists various settings categories: GENERAL, AGENT, ADDRESS BOOKS, CALENDAR, AUDIO, SCREEN POPUP, ALERTS (highlighted), FAVORITES, MESSAGES, and ACCESSIBILITY. The main area is divided into two sections: 'Audible alert' and 'Alert action'. The 'Audible alert' section has two checkboxes, both of which are unchecked. The 'Alert action' section has three rows, each with a trigger event and a dropdown menu for the action. The first row is 'Upon an incoming call on your phone' with a 'No action' dropdown. The second row is 'Upon incoming calls from Microsoft Teams' with a dropdown menu that is open, showing options: 'Display Teams pop-up alerts', 'Suppress Teams pop-up alerts' (which is highlighted), and 'No action'. The third row is 'Upon an outgoing call from your phone' with a dropdown menu that is also open, showing options: 'No action', 'Bring console foreground', 'Display pop-up on inactive console', and 'Always display pop-up'. At the bottom right of the dialog are three buttons: 'OK', 'CANCEL', and 'APPLY'.

Messages/SMS settings .

- “**Messages/SMS**” tab allows you to enter subscription data related to one of four supported international SMS providers:
 - Vola.it
 - Nexmo.com
 - TextMagic.com
 - EasiSMS
 - QuesCom
- SMS feature requires an Internet connection to provider

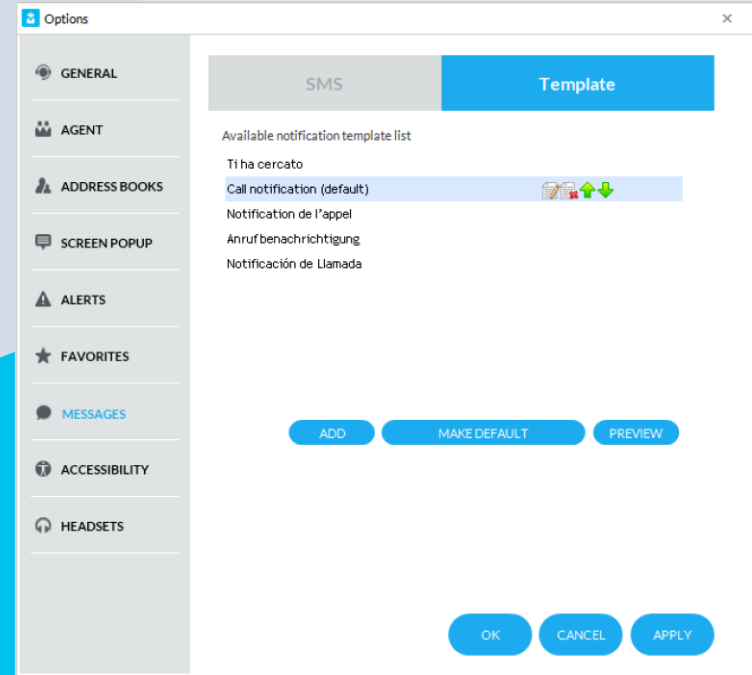

The screenshot shows a software window titled 'Options' with a close button in the top right corner. On the left is a sidebar menu with icons and labels: GENERAL, AGENT, ADDRESS BOOKS, SCREEN POPUP, ALERTS, FAVORITES, MESSAGES (highlighted in blue), ACCESSIBILITY, and HEADSETS. The main area has two tabs: 'SMS' (active, blue) and 'Template' (grey). Below the tabs, the text 'Select the provider to use for sending SMS' is displayed. The form contains the following fields:

- 'SMS Service Provider': A dropdown menu showing 'EasiSMS'.
- 'Sms sender: (max 11 digit)': A text field containing 'Imagicle'.
- 'User:': A text field containing 'Andrew'.
- 'Password:': A text field with masked characters (dots).
- 'Gateway address': A text field containing 'easisms.com'.

At the bottom right are three buttons: 'OK', 'CANCEL', and 'APPLY'.

Messages/SMS templates.

- “**Messages**” tab allows you to add/modify/remove specific templates to be used for sending email or SMS.
- Each template can include several call-related parameters like date/time, caller phone number and name, queue name, etc.

Visually impaired support.

- Imagicle UCX Console, in its “Professional” version, has been specifically designed to support visually impaired operators.
- It has been successfully tested with best in class software tools for short-sighted and blind users, like:
 - JAWS Screen Reading software for Windows
 - ZoomText Magnifier
- Attendant Console Professional has been certified by “Visiondepth”, the Italian Institute for visually Impaired personnel.
- A specific “**Accessibility**” tab is available in UCX Console settings, to enable simplified actions and display options, supporting visually impaired users
