When UCMA gateway runtime 3.0 is installed on the suite, the service Presence.Lync.Connector.Service won't start.

The following error can be found in the event viewer:

File name: 'Microsoft.Exchange.WebServices, Version=15.0.0.0, Culture=neutral, PublicKeyToken=31bf3856ad364e35'
```

Solution

1. Edit <StonevoiceAS>\Apps\Presence\Component\Assembly\Presence.Lync.Connector.Service.exe.config
2. Add the following lines after the row 35 in the privatePath attribute of the proibing tag:

```
Lib\Microsoft.Exchange.WebServices;  
Lib\MailBee;
```

3. Start the service again
