Product overview

Record and archive your calls easily.

Imagicle Call Recording is Imagicle's new solution for centralized call recording for Cisco UC platforms. It's easy to use, reliable, flexible and at the right price, dedicated to any company that needs to record calls either for critical services with legal requirements, for operator training or just to keep track of important calls. In this video, you will get a brief overview of the product.

Using Call Recording Jabber Gadget

Your App in Cisco Jabber, free!.

Exclusive Search & Play gadget inside Cisco Jabber Desktop. Lets you search and play back your calls saved and encrypted on the server, at any time. You can organize your registrations by date, tenant-group, agent, extension, etc., and search for any field.
